

“ I was very grateful to be selected as one of the student awardees at the 2022 AOAC SEA 1st Annual Conference in Singapore and **I was glad to have had the opportunity to share my Ph.D. project at the conference.** The conference has gathered experts from food analytical sciences, including lecturers from different universities, including associates from food industries and commercial labs. The sharing session had broadened my knowledge and I also grabbed the chance to expand my network during the conference. It is always no harm to join any kind of competition or conference during postgraduate studies. **Let's participate in the AOAC SEA 2nd Annual Conference student awards and get the opportunity to gather at Ho Chi Minh City for the conference.**

Dr. Hui Yin Tey

*2022 Student Award winner; Universiti Teknologi Malaysia
Current: Associate Application Scientist; SCIEX Singapore*

NEW deadline for 2023 Student Awards: 11 Jun, 2023

Currently we have received applications from 5 countries: Cambodia (1), Malaysia (9), Philippines (4), Singapore (5), and Vietnam (5), with 67% from graduate programs and 33% undergraduate ones.

To encourage more participations from the region, we extend the 2023 Student Awards deadline to **11 June, 2023**. This means the evaluation committee will need to work intensively in one week so that selected students can prepare for their travel and poster competition with sufficient amount of time.

Please help us spread the news to people in your network.

2023 Student Awards

“ Participating in and emerging as one of the winners of the 2022 AOAC student awards **was an enriching and empowering experience for me**. As a budding analytical chemist, it provided me with a platform to showcase my passion, even as a first-year postgraduate student and instilled the belief in my capacity to create a meaningful impact for the future. Moreover, the conference also gave me the opportunity to discuss the advancements of analytical food sensors with regional experts currently in the field and form lasting connections with the AOAC SEA community. For every student with a passion for the analytical sciences, I encourage you to submit your work for the 2023 student awards, as **you deserve to be recognized for your hard work, innovation, and passion for the sciences!**

Student Awards Application Package

Applicants are required to submit:

- An abstract not more than 300 words including the objective, methodology, results & discussion, conclusion and impact of research (Please see the [Application Form](#) for the abstract template and the Student Awards [Announcement](#) for research topics).
- Supporting documents (eg: Student Identification Card, publications if any, or other related documents).
- Proof of registration as Student Member of AOAC SEA ([Registration is free](#)).

Apply NOW

Call for Student Travel Award Sponsorship

Currently the Student Awards offer:

- Registration fee
- Up to \$200 SGD travel award for top 12 abstract
- \$500 SGD for top 3 poster presentation
- E-certificate from AOAC SEA Section
- Formal recognition on AOAC SEA Section Website

To encourage more students to apply and to accommodate them better for the poster competition at the 2023 AOAC SEA Conference in Ho Chi Minh City, we are calling for **Student Travel Award Sponsorship**.
